

UGEPRER I 2023

During the months of May and June, the UGEPRER I professional course was held, which focused on uranium exploration, geology, geophysics, remediation, disposal and radiation protection.

10 experts from 10 African countries participated in this course.

In addition to the theoretical lectures, the participants had the opportunity to visit leading Czech specialist workplaces such as the State Office for Nuclear Safety, the Faculty of Natural Sciences of Charles University in Prague, the Faculty of Nuclear and Physical Engineering of the Czech Technical University in Prague, the State Institute of Nuclear, Chemical and Biological Safety in Kamenná and others.
